DETAILED ACTION

Allowable Subject Matter

1. Claims 2,10,11,21 and 35 are allowed.
2. The following is an examiner's statement of reasons for allowance:

As to claim 35, DeCarlo, Jr. et al. (US 6,355,069) discloses the claimed modular assembly with the exception of the third element comprising an elongated rod having a frusto-conically shaped projection at an end thereof; a second portion of the second element projection having a frusto-conically shaped recess in a free end thereof; wherein the third element frusto-conically shaped end is engageable with the second element projection recess; whereby to affix the second element to the first element and the third element to the second element to form the orthopedic component.

There is no teaching or suggestion, absent the applicants' own disclosure, for one having ordinary skill in the art at the time the invention was made to modify the modular assembly as disclosed by DeCarlo, Jr. et al. to have the above mentioned elemental features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
